NEVADA'S FISH HATCHERY.

It now transpires that many of the fish shipped to Elko died on the passage for want of proper accommodations and the long distance they were transported.

California's hatchery for the last few years has been turning out a very inferior quality of trout, and in no way can they compare with the Nevada production.

Fish Commissioner Mills has devoted considerable valuable time to the propagation and cultivation of fish in this State and it seems to us that the Legislature ought to appropriate more money to carry out the enterprise. The present amount is \$1000 a year for two years, when it ought to be double that for the protection of this beneficial feature connected with the State.

The hatchery is at present situated in a very inconvenient place, and during the heated term the water is frequently shut off, thus making it necessary to connect with the railroad water to keep the spawn alive. Should at any time a mistake occur and the hatchery not be supplied, the destruction would amount to some 5,000,000 fish in the spawn.

What the Commissioner needs is an ample appropriation, sufficient to meet all demands and place the hatchery in a locality where no fear of drouth would hinder the hatching process, and at the same time bring it nearer the principal bodies of water that are at present only partially stocked.

Were California capable of producing such fish as Nevada does, the Legislature of that State would readily appropriate enough money to put the Fish Commissioner on a sound financial footing.

There will be plenty of water in this State the next two years, and what we want now is money to stock it with fish; the best in the world.

COAST NEWS.

The Grand Lodge of the A. O. U. W. of Oregon and Washington is in session at Astoria.

Pete Bannon and John Kelly are in jail at Petaluma, charged with burning the barn of J. W. Crites near Penn's Grove, Cal., and threatening the lives of Crites and his mother.

W. A. Dennis, a citizen of San Jose, had his pocket picked of about \$1500 in cash and checks in that city on Wednesday at the narrow guage depot, while seeing his family off to San Francisco.

The Santa Clara County Board of Supervisors have made a report charging the Sheriff with appropriating to his own use half the money allowed by the county for the support of prisoners.

Sacramento has voted to issue bonds for \$100,000 at 5 per cent. for twenty years for street work, but \$5000 of the principal to be redeemed each year, and only so much of the loan made each year as is necessary to pay one-quarter of the cost of the street work.

Bismarck never made a wiser remark than when he said in an interview with the German-American riflemen now in Berlin, that Samoa was too small a matter for Germany and the United States to quarrel over. That is precisely the position that this country took, but however small the Samoan quarrel may have seemed, Americans were determined that justice should be done to the islanders. If England had been equally as ready to make a stand on principle many lives would have been saved.—Chronicle

We acknowledge the receipt of a silver medal from the proprietor of the San Francisco Chronicle as a souvenir of the 25th anniversary of that paper. It is appropriately stamped on one side with the face of M. H. De Young and on the other with a picture of the new Chronicle building. De Young would have had the medals made of gold, but he is a sound silverman and thought it policy to practice what he preaches.
